Fundamentals and Principles of Arts

Full Marks: 100

Time: Three hours

Answer any five questions; each question carries twenty marks.

1. How do the fundamentals and principles of art differ from each other? How do they contribute to the creation of art and design? $10+10=20$
2. What distinguishes abstract art from representational art? Support your explanation using two artists and their respective artworks. $8+12=20$
3. What is perspective in art? How do artists use perspective and depth to enhance the composition of their artworks? $5+15=20$
4. What role does movement and rhythm play in creating dynamic compositions in art? Describe your answer using basic illustrations and outlines. $12+8=20$
5. What are the elements of art? Provide a comprehensive explanation that includes detailed descriptions and illustrations for each of these elements. $6+14=20$
6. What is aerial perspective? Explain the distinction between aerial perspective and linear perspective, using suitable illustrations to support your explanation. $5+10+5=20$
